

# Alabama Supreme Court Affirms Summary Judgment for Rushton Stakeley Represented Insurance Agent

The Alabama Supreme Court recently affirmed a Summary Judgment in favor of an insurance agent represented by Paul James.

James obtained Summary Judgment in the Jefferson County Circuit Court – Bessemer Division in a case involving serious allegations that an insurance agency and its individual agent failed to procure insurance for a business prior to a fire consuming a building that housed the Plaintiffs' business.

The Plaintiffs argued that the failure to procure prohibited them from filing a claim for insurance benefits and that the agency knew or should have known that such insurance was necessary under the business arrangement between the two.

The Alabama Supreme Court affirmed the lower court's judgment in favor of James' client on Friday, September 16, 2016.

# **Defense Verdict in Tuscaloosa, Alabama**

Thomas H. Keene and T. Grant Sexton, Jr. obtained a defense verdict in favor of a Tuscaloosa physician in Tuscaloosa County, Alabama, before the Honorable Bradley Almond. The case involved allegations of medical malpractice relating to care provided to a newborn in the Neonatal Intensive Care Unit within the first 24 hours of life. The defense presented expert testimony which established that the physician's care met or exceeded the applicable standard of care, and that no act or omission on his part caused the child any injury. In fact, the evidence presented established that the child was born with a deadly disease at birth, whom but for the life-saving care provided by the physician, and his team, would not have survived. The jury returned a verdict following deliberations of less than one hour. Mr. Keene and Mr. Sexton were assisted by local counsel, R. Bernard Harwood.

## **Chapman and Garrett Secure Defense Verdict for Hospital in Death Case**

L. Peyton Chapman, III and R. Brett Garrett achieved a defense verdict in favor of a local hospital in Montgomery County, Alabama, before the Honorable J.R. Gaines. The case involved allegations of medical malpractice and wrongful death based upon claims relating to a fall which caused a hip fracture, pressure sores, and an allegation that a catheter-associated

urinary tract infection caused the Plaintiff's decedent to develop urosepsis, respiratory failure, and ultimately to die.

The defense presented evidence that the hospital staff provided appropriate care and treatment with regard to fall prevention measures, pressure sore prevention and treatment, infection control, and all other aspects of the patient's care. The defense also presented evidence that the decedent's death did not occur due to the alleged breaches of the standard of care but, instead, was caused by the decedent's overwhelming comorbid medical conditions, including systemic vascular disease, coronary artery disease, congestive heart failure, renal insufficiency, and other related conditions.

On March 16, 2016, the eighth day of trial, the jury returned a defense verdict after approximately one hour and forty-five minutes of deliberation.

## **Rushton      Stakely      Client Awarded    \$4.9    Million    by Autauga County Jury**

In what may be the first test of the Alabama Heavy Equipment Dealer Act, on Feb. 12, 2016, an Autauga County jury awarded a Rushton Stakely client lost profits of over \$4.9 million against a heavy equipment manufacturer due to termination in violation of the Act. The client had been a dealer of heavy equipment for 19 years when it was terminated in 2014. The jury determined the termination was without good cause. The trial judge, Hon. Sibley Reynolds, also determined as a matter of law that the termination letter failed to provide 120 days advance notice. The Alabama Heavy Equipment Dealer Act, which was enacted in 2009, allows for the recovery of lost profits

and also allows a successful dealer to recover reasonable attorney fees and costs. Deirdre Russell of Business Appraisals & Consulting, Inc. testified to the past and future lost profits of the Plaintiff. Dennis R. Bailey tried the case for the dealer. J. Evans Bailey and Jessica Trotman assisted in preparing the case for trial.

## **Freeman Obtains Defense Verdict in Jury Trial in Lowndes County**

Plaintiff sued a heavy equipment dealer and a service technician claiming faulty service and maintenance on Plaintiff's excavating equipment used in its mining and dredging operations. Plaintiff claimed that the Defendants caused or allowed debris or other contaminants to enter the hydraulic system, damaging the hydraulic pump which ultimately rendered the large machine useless.

Defendants denied any wrongdoing and noted that any and all modifications, service, and maintenance provided by the equipment dealer and its service technicians was consistently performed in a professional and competent manner.

Plaintiff's claims of negligence and wantonness were submitted to the jury. After nearly a week long trial, the jury found in favor of Defendants on all counts.
